Re: Reconstruction of Jane Street and Marie Street, including portions of Cedar Street and Willow Street
Town of Shelburne

Dear Parent:

Cedarwell Excavating Ltd. will be working on the reconstruction of the above noted streets for the Town of Shelburne. The construction will involve the installation of new water main, sanitary and storm sewers and road reconstruction.

Reconstruction of these streets is scheduled to begin the week of September 26th. The project is expected to take approximately 65 working days (3 months) to complete. Cedarwell will be working from 7:00 a.m. until dark Monday through Friday.

The streets will be open to local traffic only and at times there will be no through access available. We ask that school children use the sidewalk on the west side of Cedar Street with caution or preferably the sidewalk on Silk Drive. A map has been attached which shows the construction area and the suggested walking routes to the school. Snow fencing will be installed along the sidewalk on the west side of Cedar Street.

A construction site can be a very fascinating spot for a child, but also a very dangerous place. Please make sure your children are aware of those dangers.

If you have any questions or concerns, please feel free to call Cedarwell Excavating at the office at (519) 364-0023 or on site at (519) 378-5388.
